POPE MAY NOT LIVE THROUGH DAY, PAPAL PHYSICIAN STATES

Only Injection of Camphor Oil Gives Benedict Relief, Dr. Batistini Declares

"THE END IS IMMINENT"

Cardinal Gasparri, Weeping, Makes This Statement as He Emerges From Chamber

SAYS POPE IS DELIRIOUS

Hope Revived at 10 A. M. When Benedict Sinks into Sleep—Takes Nourishment at 10:30

(By United Press)

Rome, Jan. 21 (2:30 P. M.)—Pope Benedict XV sank into a coma this afternoon and it is unlikely that he will live until evening, Dr. Batistini, papal physician, announced at 1:45 p. m. Only injection of camphor oil gave the pope relief, the doctor stated. At 2:10 p. m., the pope's physicians were momentarily awaiting the end.

"The end is imminent," Cardinal Gasparri, emerging from the bed chamber, declared this afternoon. Cardinal Gasparri was weeping. He announced that the pope was delirious and that his holiness insisted upon resuming his work.

The pope took nourishment at 10:30 a. m. after an hours sleep.

At 11:50 a. m. his holiness continued in a semi-conscious condition. Liquid nourishment was administered shortly before 1 p. m.

A statement as to Pope Benedict's condition issued at ten o'clock, declared that should the unexpected sleep into which the Pope had sunk, continue for several hours, it might justify hope for his recovery.

At 1 o'clock this afternoon, it was announced from the Vatican that all hopes for Pope Benedict's recovery based on his sleep and taking some little nourishment this morning, had been abandoned.

Pope Benedict XV was sleeping this morning when his physician visited him at nine o'clock.

A statement that his death was only a matter of a few minutes.

EXTENDS TIME FOR NEW AUTO LICENSES

Period of Grace Will Last Until February 15 so Motorists May Have New Numbers

OTHER LAWS VIOLATED TOO

Indianapolis, Ind., Jan. 21—Peace officers throughout Indiana are advised in a bulletin just issued by the Hoosier State Auto Association that a period of grace extending to Feb. 15th has been allowed by the automobile department of the secretary of state's office for all motorists to be equipped with 1922 license plates. In the northern section of Indiana already a number of arrests have been made by over-zealous officials for failure to display 1922 plates, but in most instances the courts dismissed the persons so arrested. In some cases the auto association has entered a protest to protect owners from this unjust action.

"There are plenty of things for peace officers to do just now without cracking the whip on license plates," the association says. "For one thing, it may be said that the state law requiring mirrors on all trucks and commercial vehicles is not thoroughly enforced. This law not only requires mirrors but stipulates that such mirrors must be placed so as to give a view of the rear to the driver. Just notice the trucks you see that have mirrors and see how many of them are complying with the law, and likewise notice how many trucks have no mirrors. This law is essential to traffic on the highways and should be vigorously enforced all over Indiana. Let the peace officers get busy on this thing. In a few weeks they can get busy on the license plate-violators."

DEATH REPORT UNTRUE

London, Jan. 21.—Pope Benedict XV is dead, a News Agency dispatch from Rome said this afternoon. On receipt of the report here the bells of Westminster cathedral were tolling. Riter's agency carried the report.

A Rome dispatch to the United Press through the London bureau this afternoon stated the Pope's physicians hurried consultation at 9 a. m. this morning caused rumors of the death of the Pope which were later officially denied.

Washington, Jan. 21.—The papal legation has received no official word of the reported death of Pope Benedict XV, it was officially stated at 2:30 this afternoon.

The last cable to the legation stated his holiness continued critically ill.

which had been issued earlier, was immediately withdrawn.

It was declared by the papal physicians then that his holiness might linger for some time as was the case with Pope Leo.

Praying throngs outside the vatican and cardinals and attendants crowding the ante chambers this morning had been plunged into deepest gloom by a statement from Prof. Marchisiani that Pope Benedict's death was a question of minutes.

The physicians who were in constant attendance upon the Pope throughout Friday and were retired early today only at his holiness' request, visited the papal chamber at 7 o'clock this morning.

An official bulletin which was issued by them afterwards read:

"His holiness' condition became worse during the night. The pneumonia has spread. The temperature 38.4 (Centigrade), the pulse 120, and the respiration 60."

At noon, however, it was announced that the Pope's condition had become worse.

Pope Benedict, whose slight attack of bronchial catarrh acquired while conducting an open air mass Sunday, spread to his heart and lungs and developed into pneumonia, was not expected to live throughout last night.

The Pope's nephew Marquis Della Chiesa, came to the bedside and was asked by Pope Benedict to pray for him.

SCHOOL SEMESTER TO BEGIN MONDAY

Children Under Six Years of Age Urged by Supt. Scholl Not to Start Until Next Fall

38 ENTER THE HIGH SCHOOL

The first semester of the city schools came to a close Friday at 3:30 when the report cards and promotions were held in all grades and in the high school, and the new school term will begin Monday morning.

Superintendent J. H. Scholl stated today that Monday would be the time for all first grade pupils to start in school, who had reached their sixth birthday by Monday. He stated that children who had not yet become six years old, should not attend the schools, as it would be better for them to wait until the fall term, and not become irregular in their classes.

Thirty-eight grade students will enter high school Monday, which is a good sized class of Freshmen, and which will increase the high school enrollment, as no one finished up the high school course at this time.

The beginners in the schools are urged to enroll in the first grade school in the ward in which they reside, so as not to cause any conflict during the first few days of the new term.

Local Wireless Station Picks Up Many Speeches And Concerts

Jess Poe, with Receiving Apparatus Again Working, Enjoys Nightly Programs Given at Many Points in the United States. Hears Introduction of Indianapolis News Radio Service Which Will Distribute News and Give Musical Programs. Westinghouse Radiophone Studio's Daily Schedule Received Here.

The announcement by the Indianapolis News Friday evening that it had started a wireless telephone service calls attention to the fact that Rushville has a receiving station which has been picking up addresses and concerts from many parts of the country.

The station is in Jess Poe's home, 1012 North Morgan street, and has been in operation for a month. Mr. Poe formerly had a station at his jewelry store but took it down during the war at the request of the government, which issued regulations that prevented any amateur wireless operators from picking up messages.

Friday evening Mr. Poe heard a

fifteen minute talk by Lot Lee, telegraph editor of the Indianapolis News, who is well known here, explaining the new radio news service of the News. Francis F. Hamilton of Indianapolis, son of Mr. and Mrs. Lucius Hamilton and nephew of J. P. Frazee and Austin Frazee of this city, will be radio editor of the News. The Daily Republican today received next week's daily program of the Westinghouse Radiophone Studio, Station K. Y. W., at Chicago, Ill. Some of the best known artists in the country will give the programs nightly from 8 to 9 o'clock.

Mr. Poe has already heard some of the Westinghouse Studio programs. Friday evening he heard an address of fifteen minutes regarding the United States Health Service, which was delivered at Washington, D. C., and was plainer than the Indianapolis-sent matter.

Mr. Poe says that Pittsburgh has announced a sermon for Sunday evening by an eminent Pittsburgh minister. Some splendid musical programs have been heard by him in Washington, also. The radio continued from Page 2.

TWO HIGH SCHOOL BOYS ARE DROWNED

Joseph Hicks and Oscar Copeland Pinned Under Car After It Somersaulted Down Embankment

ACCIDENT NEAR BOGGSTOWN.

Farmer, Basketball Coach and Player Who Were in Machine Escape—Driver Struck Abutment

(By United Press) Shelbyville Ind., Jan. 21.—Two high school youths were drowned late Friday night when the automobile in which they were riding plunged into Big Sugar Creek near Boggsstown.

Three other persons were hurt. Joseph Hicks, 15, and Oscar Copeland, 17, were pinned under the car after it somersaulted down a fifteen foot embankment after striking a bridge abutment. The boys were returning home from a basketball game between Boggsstown and Clark township, Johnson county teams.

John Holeman, farmer of Johnson county, Wayne Holeman who teaches school and coaches the Clark township team and John Wadsworth, a member of the team, were in the automobile. All were cut and bruised, but the coach was thought to be more seriously hurt. All three suffered from exposure in trying to save the lives of the other two boys.

Wayne Holeman was driving the automobile and was blinded by the snow storm. As he approached the bridge he pulled to the side of the road to let a buggy pass. The automobile struck the abutment of the bridge and toppled over the fifteen foot embankment into the six feet of water.

NEXT WEEK TO BE BUSY ONE

Much Business Crowded Into Last of Circuit Court Term

The Bank of Redkey, Redkey, Indiana is plaintiff in a suit filed today in the circuit court against Fred H. Dagler, et al., the complaint being on a note, in which \$1,538 judgment is demanded.

Next week will be the last week of court in the November term of court, and after a week's vacation, the new term will open. Several matters have been crowded onto the docket for next week, in order to finish up much of the business for the present term.

The grand jury has not been used during this term of court which follows the custom of calling the grand jury ever other term, and which will probably make necessary the calling of the investigators during the February term.

TO BE BOUND UP IN ONE PROTOCOL

Four Power Pact, Naval Limitation and Nine Power Far Eastern Treaties to be Combined

WILL THUS BE SUBMITTED

Will Not Preclude Opportunity of Rejecting One Portion Without Vitiating Remainder

By CARL D. GROAT (U. P. Staff Correspondent)

Washington, Jan. 21.—The four power Pacific pact, the five power naval limitation and the nine power Far Eastern treaties with other agreements of the arms conference will be bound together in a single protocol for submission to the Senate and other world ratifying bodies.

This form follows that used at The Hague and in other great international gatherings and does not preclude the opportunity of rejecting one portion without vitiating the remainder.

In this way the United States government can submit to the Senate the fruits of the conference in imposing unit. Leaders believe the psychological effect of such a move will be good, lessening to some degree of some groups which may be reluctant to attack Far Eastern settlements for fear that their action might be considered as opposition to limitation of naval armament.

Disposal of article XIX—the Pacific fortifications limitation clause of the naval limitation treaty—is still waiting upon Japan's acquiescence or rejection of its provisions.

The two sections dealing with permitting suspension, or abrogation upon notice, of the naval treaty in case of a "change in circumstances"—war or a threat of war—have been left unchanged in the final treaty draft.

The treaty definitions—simple enough on paper, but the product of many weary hours work by experts—have been obtained by the United Press.

Naval holiday is not used, but the replacement and scrapping chart provides for it by designating a ten year period in which no ships or rather only specified exceptions can be built.

ANOTHER COLD WAVE IS DUE

Temperature to Drop Sunday Evening, Weather Man Says

Another cold wave is headed this way according to the weather report sent out today from Indianapolis, in which the warning sets out that the temperature will drop Sunday afternoon or night to within ten degrees above zero. The weather observer had the right prediction Friday night, when he stated that the warmer weather would bring a light snow, and several inches of snow fell here during the night, and today the skies cleared.

The prediction for the next 36 hours stated today that generally fair weather would prevail tonight and Sunday, except probably snow flurries in the extreme north portion, with colder Sunday, and zero weather for the northern area, with about ten degrees above for this section by Sunday night.

NO DULL MINUTES IN "OH, OH CINDY"

Musical Comedy by American Legion is Said to be Staged With Smooth Running Scenes

WILL BE GIVEN NEXT WEEK

Big Cast of Characters Included in Show Which is Full of Medley of Color and Music

There are no moments of rest in "Oh, Oh, Cindy", the production which is to be staged by local amateurs at the Graham Annex under the sponsorship of American Legion. An excellently staged, swiftly moving, smooth running performance of one of the best and smartest of the season's musical shows is certain to be presented by the local people.

The play is a medley of color music, and artistry. One starts at a rehearsal of a modern show on a metropolitan stage and in the twinkling of an eye is whisked to Fairyland, to the South Sea Island and back again to Fairyland. The magic of a thousand spicers bring the mystery of the Orient, with its melody, its beauty, its mysticism, to the local stage. It is a wonderful presentation and is certain to far surpass anything of its kind ever before presented in Rushville.

Robert G. Wood the director representing the John B. Rogers Producing Co., declare that he is satisfied that the performances will be one of the most successful in his entire career. The scenery and costumes have arrived and proved to be far more elaborate than even the promises of the company anticipated. The scenic settings are especially beautiful.

Capacity houses are expected Jan. 25th and 26 and there is every evidence that there will be a sell-out. Seats will be on sale at Orens Pharmacy Monday. Those wishing to make reservations should do so Monday as there has been a great demand and it is not certain how long seats will be available.

SCHOOL WILL NOT OPEN

The New Salem schools will not open Monday, as stated in the paper Friday night, as additional cases of diphtheria were reported and the schools officials did not believe that it would be safe for the schools to open on Monday. Unless other cases are reported, the schools may open during the week, and a definite announcement may be made by Monday or Tuesday.

CREDITORS TO MEET

Creditors in the bankruptcy proceedings of William G. Mulno will meet Monday at Frankfort with Harry Sheridan, state bankruptcy commissioner, and the affairs of the local clothier will be settled, it is announced, so that it will be possible to reopen the store in a few days.

SPEAKS TO BIBLE CLASS

Ernest B. Thomas of this city addressed the Men's Bible class at the Y. M. C. A. in Greensburg Friday night. The class meets once a week and hears biblical talks. The class is non-sectarian and has a large membership.

EIGHT TEAMS WILL BE HERE SATURDAY

Drawing For Play in County Tournament in Rushville is Conducted by Officials Today

SEVEN GAMES ON SCHEDULE

Demonstration Under Direction of Physical Director Put on Program in the Evening

Eight high school basketball teams of Rush county will meet here next Saturday, taking part in the annual Rush county tourney which will be held at the Graham Annex gymnasium, with four games in the morning, two in the afternoon and the final event at night.

The drawing for places took place this morning by representatives of the eight schools and the following schedule was completed:

Morning Games
8:30 a. m. Webb vs Manila.
9:20 a. m. Moscow vs New Salem.
10:10 a. m. Arlington vs Raleigh.
11:00 a. m. Glenwood vs Rushville.

Afternoon Games
2:30 winner 8:30 vs winner 9:20 game.
3:20 winner 10:10 vs winner 11:00 game.

Night Game
8:00 winner 2:30 vs winner 3:20 game.

Prof. A. F. Cotton, physical director of the Rushville schools, will have charge of a preliminary exhibition at 7:15 when his classes will display an exhibition of gymnasium work. The 30 minute demonstration will be worth anyone's times, and will be something different for a curtain raiser.

The basketball games will be fifteen minute halves all of the way through, and each team cap-not have more than eight players entered in the tourney.

Reserved sections for each school will be allotted to the schools according to the number of season tickets purchased by the school and it is expected that each school, will be well represented at the all day tourney.

Judging from the drawing, there will be several good games all of the way through, as the county teams always fight hard for the honors. The first game between Webb and Manila will be a good one, as also will the contest between the Arlington and Raleigh team.

The two afternoon contests will be good ones, as the teams then enter upon the semi-finals. Any prediction as to the two teams that will take part in the afternoon or night games, would be doubtful.

The Rushville team will be feeling the effects of a hard battle on the night previous, as Connersville plays here Friday night, and the locals will no doubt be considerably off form on the day following.

The season tickets will be on sale next week and definite announcements will be made later, concerning the tourney.

CENTER PLAYERS ARE INJURED IN RUNAWAY

Howard Grubbs and Lowell Jessup of Basketball Squad Bruised When Horse Runs Away

LATTER UNABLE TO PLAY

Two members of the Center high school basketball squad, which opposed the Rushville high school second team in a curtain-raiser to the Richmond game here Friday night were painfully injured in a runaway accident while returning home from school Friday evening.

The injured boys were Howard Grubbs, son of Mr. and Mrs. Earl Grubbs, and Lowell Jessup, son of Mrs. Nellie Jessup, both of the Center neighborhood. A machine came up suddenly behind the buggy in which they were riding and their horse frightened. The horse reared and broke the shafts and ran away.

The boys were thrown out and severely scratched and bruised and the Jessup boy was rendered unconscious. He regained consciousness, however and was able to attend the game last night, but could not play.

Don't Burn Good Fuel in a Poor Stove.

TAKE

PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEPINCO.

New York Stocks

The early market was featured by another break in Gulf States Steel which carried the stock to 64, off 81 points from the opening and 26 from Friday's high. The stock broke from 69 to 65 1/2 between sales. The rest of the list was somewhat heavy and Steel common sold to 86 1/2 off 1 1/2 from the high this week.

Sugar stocks held up better than some of the others probably because of the fact that the shorts have not yet been run in.

The pool in Studebaker is making no effort to hold up the stock.

It made an early low of 88 1/2 off two points from Friday's high.

Some of the people interested in the market movements of Studebaker are not anxious to do anything with the stock until after the dividend meeting late this month. They argue that inasmuch as only the regular dividend will be declared there is nothing right now on which to base a big market movement.

FAITH

(By Charles E. Gummels, Director of Organization, American Farm Bureau Federation).

Let every Farm Bureau member in the United States resolve for 1922 that he will have faith in himself, his fellow-farmers, his County Farm Bureau, his State Federation, and the American Farm Bureau Federation. He should urge every unorganized farmer in the United States to join him in the faith, believing that the organization movement among farmers is the means, and the only means, to better the condition of the farmer, recognizing it as his duty to lend his support to that movement.

The opposition is whispering to the faithful that their faith is folly and their efforts will result in failure. Surely the intelligent American farmer will rise above such suspicions and scorn the narrow mind that gives them birth. Human nature, in its weakness, is often prone to give credence to the suggestion that our fellows are animated by selfish motives—that our service organizations are attempting to exploit their members. Suspicious and jealousies have contributed to all the colossal failures and disappointments in the history of the world. The farmer who permits hostile interests to suggest to him that his Farm Bureau is not working in his interest, that it costs too much, that he is foolish to be a member of a farmers' co-operative organization, is consciously or unconsciously guilty of treason to the best interests of himself and brother farmers. As the Farm Bureau gains in strength opposition becomes more active, more clamorous and subtle.

There is no doubt about the victory if we adopt these watchwords for 1922—Faith, Courage, Action. But we must all act, for by our Works will our Faith be known.

He Couldn't Prove it
Shelbyville, Ind. Jan. 21—A "miracle man" tried his stunt on Mayor Le Hoop's deaf ear, but it didn't work, and he was ordered to leave town.
Prof. J. A. White said he was endowed with supernatural powers. He attracted much attention when he told of curing prominent men in other cities and of raising some of them from their deathbeds.
When he tried it on the mayor's car he rubbed his hands together and apparently went into trance. When it didn't work, he was not infallible.

What Can Congress Do

"Why don't congress do something?"

That is the question we hear day after day, indicating a belief that congress is doing nothing toward restoring normal conditions in this country.

But what can congress do? Whichever way it turns, whatever it does, it is sure to be bitterly criticised.

The farmer wants one thing, the manufacturer wants another, other interests want other things, and so it goes clear on down the list.

If the special legislation desired by one class is enacted into law it interferes with the ambitions and desires of other classes.

If the farmer is given what he wants he is sure of better prices for his product, but that increase is paid by the manufacturer and every other class of people.

If the manufacturer is granted protective legislation, the farmer, as well as the rest of us, dig down and pay the increased cost of manufactured products.

Even if a fellow gets all that he demands from congress he is sure to go on a kicking spree because somebody else is getting what he demands at the expense of everybody else.

In other words, this country is just one great arena in which everybody wants something special, but doesn't want to grant other people the same privilege.

Really now, what can congress do?

What could you do if you were unfortunate enough to be a member of that august but much lambasted body?

"Pay as you go" would be commendable, but its universal adoption would present a cruel side. It would railroad a lot of collectors out of their jobs.

It is considered quite offensive now to refer to a man of wealth as a millionaire. They object to being classed among the common herd.

According to a contemporary, costly weddings are going out of style. With no other kind left, what are we going to do?

After all, knickerbockers for women were not sidetracked. They didn't get that far.

Whatever we may think, Postmaster General Hays at least knows when quitting is good.

Even a referee has his friends. The winners enthusiastically approve of him.

Sausage Maligned

By Term "Hot Dog"

Chicago, Jan. 21—"Hot dog" has caused a slump in the sausage market according to John T. Russell, president of the Meat Council of Chicago.

The effect on the sausage market of the slang expletive is serious and retail meat dealers from all parts of the United States are in session here to see what can be done to "overcome the evil."

Returning soldiers revived the almost forgotten bit of slang and the public once more began to speak of "weinies" as "dogs." The effect was instantaneous Russell says, and sensitive people found themselves unable to eat sausages.

As the phrase grew in popularity, sausages lost caste. Now only the hardened buy them.

RUSHVILLE PULLS ONE OUT OF FIRE

With Score Tied at 15 and 5 Minutes to Play, Locals Score 3 Field Goals on Richmond

ONE FROM CENTER STARTS IT

Frazee Breaks 15 All Count And Phillips And Casady Follow With Two Clean Ones

The Rushville high school pulled one out of the fire Friday night in the last few minutes of play and by registering three field goals, won out over the Morton high school of Richmond 21 to 15, in a basketball game that was hot and furiously fought from beginning to end.

The two teams battled on almost even terms from the very start, and with the count tied at 15 points, and only five minutes left to play, Frazee back guard, stepped forward to the center of the floor and caged a ringer, Phillips popped in from the center and added two more points and Casady finished the scoring with a basket form near the center.

Richmond was the first team this season to give Rushville any trouble in penetrating the defense, and the visitors were exceptionally good guards. Each player on the Rushville team had a man on him all of the time and Stewart was especially guarded at all times.

The red and black team drew first blood when Stewart fed the ball to Headlee close to the basket, and the ball went through. Rost for Richmond threw a foul goal, and in a few minutes put his team in the lead when he caged a field goal.

After the two teams had tussled back and forth for several minutes Richmond went into the lead deeper when Kessler counted for a goal, giving them 5 to Rushville's 2.

Headlee scored again when he threw the ball backward over his head and the ball dropped cleanly into the net, and in a few minutes Phillips tied up the score at 5 points on a foul goal.

Morton high could not be downed and Rost came to the rescue again with a field maker and a free shot giving his team a three point lead once more. After a few minutes more of hard battling Stewart and Headlee bounced through and the latter sent the ball rolling around the hoop and in for a two point marker, leaving the locals trailing one point, 8 to 7.

Phillips again tied up the score at eight points when he converted a foul made by Richmond into a point, and soon afterwards he managed to dribble through the center with a clear shot for the net giving Rushville ten points, but before the half ended Rost counted on a foul, making the score 10 to 9 in favor of Rushville at the half way mark.

At the start of the last half Phillips scored the first point on a foul throw, but Rost again tied up the count when he found the basket from the side angle. Pugh dropped the next basket in for Rushville after receiving a throw from Frazee for the full length of the court and. Graffis for Richmond evened up the score at 13 points on a field goal.

The two teams were hitting a fast stride and Graffis put another field goal in and that placed Richmond two points in the lead and after considerable struggling Phillips edged his way through finally for a field goal that evened up the score at 15 points.

It was at this stage in the game that only five minutes was left and then came the final attack of the locals which boosted up the count to 21, although Richmond missed a couple of chances to score on foul goals.

There were no individual stars on the Rushville team, as each of the six players who had a part in the game, played fast ball, and every player at his best. The passing of the Richmond team also was great, and the visitors can not be under estimated on account of their defeat.

The curtain raiser was won by the second team when they had a walk-away with the Center high school, 27 to 3, the visiting team failing to make a point in the last half. The Center

POPPON FUNERAL TODAY

Services For Washington Township Farmer at Raleigh Church

Funeral services were held this afternoon at the Raleigh church for John Poppon, well known farmer of Washington township, who died Wednesday, after a few days illness of influenza. The deceased is survived by the widow and a daughter Mrs. Burley Hinchman of near Falmouth.

He and his family have resided on a farm northwest of Raleigh for several years, and last summer he underwent a severe operation in Dayton O., and his health had been poorly for some time. The burial was made in the cemetery at Raleigh.

Bright Spots in News

New York—Firemen and policemen called out in force by alarms and whistles found only a "private fight" going on at a 3 a. m. wake with the participants extremely annoyed at being disturbed.

St. Paul—An electrical device spilled liquor into a drain every time police entered a certain soft drink parlor. Police finally confiscated the device. A push button connected to batteries, magnets and a spring, tipped glasses and bottles from a shelf.

Theatrical Things

By ALICE ROBE

By HEDA HYOT
(Written for United Press)
New York, Jan. 21—American women have definitely rejected French dictation on the length of their skirts. Months ago Paris modistes declared that the long skirt was to be the coming vogue for women. American designers were ready to agree with them. In fact they will tell you now that the longer hem is here. Perhaps—but where?

Not on Fifth Avenue; not on Broadway; not on Hester street; nor Main street, Gopher Prairie! At the first announcement from Paris of the long skirt, magazines of fashion were filled with illustrations of long skirted mannequins; display windows immediately ignored the tapering calves of waxed models; cloth makers sat back in swivel chairs and chuckled at the thought. And what happened?

The flapper still flaps about in knee length skirt and hose of gauze, clinging to them because she knows in summing up her charms that legs are not least. The athletic girl in flat heels and woolen hose strides

around in the freedom of her short, flaring skirt. And the matron whose years recall the germ-laden hems of yesterday awaits for someone with a less shapely ankle to hasten the style. In these days when a long skirt might suggest a physical defect, it is a brave woman who will attempt it.

Heretofore Paris has been a bright and shining symbol of style and chic. When Paris designers said short vamps, short hair, short corsets and short skirts, we wasted no time in "outshorting" them. But when they start lengthening in the venacular of the dough boy, we are not so "toot sweet".

White gloves are being supplanted by taupes and grays and even darker shades for dress wear.

The popular side panel effect for skirts can be used to utmost advantage on afternoon and evening gowns by handling long strings of jet or pearl beads from the side waist line to the hem of the gown.

It is pleasing to see so many women wearing their hair in the real nature given shades lately. Henna and walnut stains to say nothing of peroxide, seem to have faded away. Even the younger faces have, now and then a streak of gray surrounding their brows.

In speaking of coiffures, where, oh where are the little ears which were predicted to show themselves this season?

Winter finds the ever popular coat suit a trifle longer in coat length than the past few seasons. "Marron", or chestnut brown, seems to be the prevailing shade for suits and lends itself admirably to fur trimmings such as sable and kolinsky.

The latest shade used for undergarments comes from Paris and is called rose-beige. It has more of a flesh tone than what formerly were termed "flesh" as the introduction of tan might suggest.

The Grasshopper And The Ant

Probably you have read the fable of the grasshopper and the ant. How the ant prepared for the winter and the grasshopper only played, and later starved.

And the moral—do you interpret it?

When you buy, do you purchase any kind of product? Or do you prepare for wise buying by reading the advertisements and selecting the article that will do you most good?

Advertised products are the best possible buys. They must give greatest value because they have a good name to protect. Manufacturers of well known articles and merchants value these names at millions of dollars. They cannot afford to jeopardize the worth of their names by selling any but the best quality at the most reasonable prices.

Buy with forethought. And read the advertisements to see what to get and where to get it.

Buy the advertised products!
